

ADVANCED PROCUREMENT PORTAL (APP)

Solution Summary

US Federal Contractor Registration's (USFCR) Advanced Procurement Portal (APP) is a web-based contracting management platform designed for government contractors. Leverage our user-friendly platform to locate federal contract opportunities and stay ahead of your competition.

FACING FEDERAL CONTRACTING COMPLEXITIES

User Difficulty?

Government websites and other contracting platforms often suffer from antiquated interfaces and poor usability, making navigation and resource access cumbersome.

Site Crashes?

Frequent downtime and crashes on contract sourcing platforms can cost money, disrupt operations, frustrate users, and result in the loss of contracting opportunities and real-time intelligence.

Static Features?

Competing platforms, as well as publicly available sites, rarely undergo updates, limiting functionality improvements, efficiency, and user satisfaction.

Learning Curve?

Businesses new to the federal marketplace might not know the proper steps to bidding on a federal contract.

INSIDE USFCR'S SOLUTION

With APP, contractors can manage a wide array of vital government contracting tasks with one easy-to-use platform.

SEARCH

Find opportunities in your industry with ease.

SAVE

Save your search preferences to keep receiving relevant results.

AUTOMATE

Keep track of opportunities with updates emailed directly to you.

MANAGE

Keep track of contracting officer and subcontractor activity.

LEARN

Keep your skill set and knowledge sharp with the APP Learning Center.

RESEARCH

Find information on previously awarded contracts and your competitors.

BENEFITS

User Focused

At the core of APP's design is simplicity. Finding opportunities is as easy as using your favorite search engine.

Reliability

APP has an uptime percentage of 99.8% in the past 2 years.

Updates

With APP, you don't have to wait years for a much needed system update. New and helpful features are constantly being added.

Learning Center

USFCR's learning center has tutorials that walk clients through the steps of finding and bidding on contracts, tracking saved searches and many other features.
