

CMMC SERVICE Solution Summary

US Federal Contractor Registration (USFCR) offers a comprehensive Cybersecurity Maturity Model Certification (CMMC) service designed to assist federal contractors in meeting not only the Department of Defense's (DoD) requirements but also expanding to non-DoD contracts and grants. As a registered practitioner with CyberAB, the governing body for CMMC, our service ensures contractors achieve compliance and enhance their opportunities to secure federal contracts across a broad spectrum.

CMMC COMPLIANCE CHALLENGES

Resource Limitations

Contractors often lack the necessary resources and expertise to fully understand and properly implement CMMC requirements.

Continuous Updates

Keeping up with the evolving standards of CMMC poses a constant challenge.

Technical Complexity

The technical nature of CMMC can be daunting without the right expertise.

INSIDE USFCR'S SOLUTION

USFCR's approach simplifies CMMC compliance, from initial assessment to certification maintenance.

ASSESSMENT & GAP ANALYSIS (LEVEL 2)

An initial consultation assesses your cybersecurity status and identifies gaps to meet CMMC standards. For advanced levels, we address these gaps through specialized partnerships.

CUSTOMIZED COMPLIANCE ROADMAP

We develop a streamlined plan with clear steps for CMMC certification, enhanced by partnerships for advanced levels.

CERTIFICATION READINESS AND SUPPORT

Comprehensive preparation and support throughout the process ensuring full compliance with CMMC requirements for level 1.

POST-CERTIFICATION COMPLIANCE MONITORING

Ongoing monitoring and updates ensure your operations remain compliant with evolving CMMC standards by updating NIST as needed.

BENEFITS

Streamlined Compliance

Our service simplifies the path to CMMC compliance, reducing the burden on your internal resources.

Reduced Cyber Risks

With our help, your proposal's credibility and persuasiveness are significantly enhanced.

Enhanced Contract Opportunities

We help identify and rectify potential errors, reducing the risk of rejection.
