SIMPLIFIED ACQUISITION PROGRAM
Solution Summary

From an active and compliant System for Award Management (SAM) registration to an online capabilities statement, US Federal Contractor Registration's (USFCR) Simplified Acquisition Program (SAP) makes getting started to sell to the government easy. Enrollment in the SAP also includes a custom business email domain, and access to the Advanced Procurement Portal (APP), a web-based contracting management platform designed for government contractors.

CONTRACTING CHALLENGES

Processing SAM

Registering in SAM can be a complex undertaking for those not experienced in processing government forms.

Business to Government Marketing

Many businesses lack the resources for properly marketing their products and services to the government.

Point of Contact Management

Businesses need a designated point of contact when working with federal agencies to manage communication.
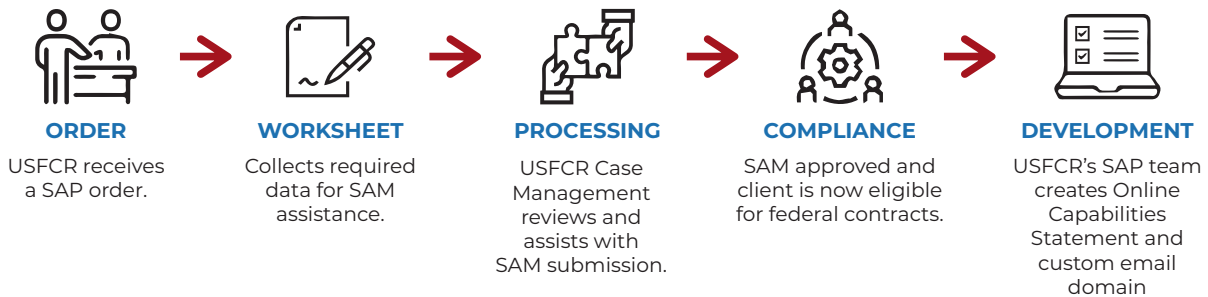

Contract & Market Research

Government websites can be complex to use and prone to crashing, this can make finding opportunities challenging.

INSIDE USFCR'S SOLUTION

With the SAP, business owners save time and money putting their best foot forward selling to the government.

ORDER
USFCR receives a SAP order.

WORKSHEET
Collects required data for SAM assistance.

PROCESSING
USFCR Case Management reviews and assists with SAM submission.

COMPLIANCE
