

# VENDOR MANAGEMENT & ASSISTANCE PROGRAM

## Solution Summary

US Federal Contractor Registration's (USFCR) Vendor Management & Compliance Program (VMP) ensures that all of your subcontractors are registered in the System for Award Management (SAM) and active. To assist you in meeting set-aside goals, the program will also get your subcontractors in compliance for the SD/VOSB, ED/WOSB, HUBZone, and 8(a) certifications if they qualify. The registration and compliance status of your subcontractors will be available online in the Advanced Procurement Portal (APP).

### VENDOR COMPLIANCE CHALLENGES

#### Compliance Penalties

If audited, a prime can face various penalties for subcontracting work to vendors not federally registered.

#### Registration in SAM

Leaving your subcontractors to register themselves in SAM can be time consuming and complicated.

#### Meeting Set-Aside Goals

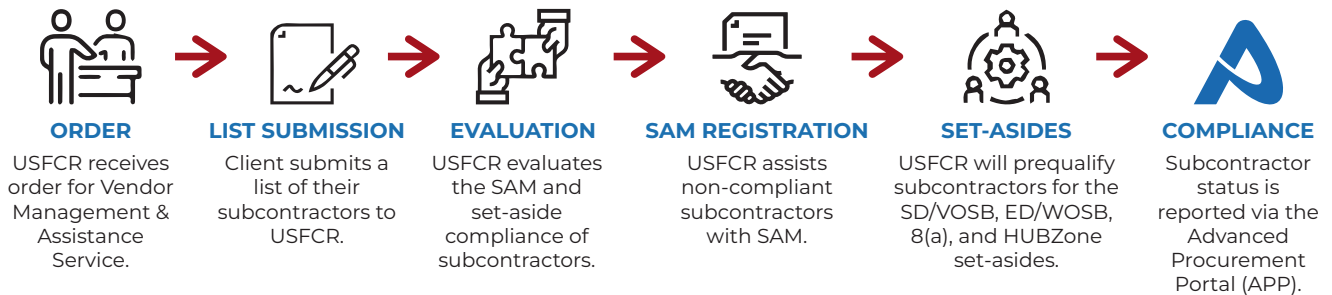

Prime contractors can miss out on meeting set-aside goals if their subcontractors are qualified but not registered or certified.

#### Time and Budget

Managing multiple subcontractors can consume time and resources that can be put to better use.

### INSIDE USFCR'S SOLUTION

By outsourcing the vendor management and compliance process, prime contractors can reach their small business subcontracting quotas and streamline federal reporting.

### BENEFITS

#### Penalty Avoidance

With USFCR's VMP, avoid any subcontractor compliance related issues.

#### Recognition Among Federal Agencies

Your subcontractors will receive a USFCR Verified Vendor seal. The USFCR brand is recognized by federal agencies.

#### Speed and Accuracy with Set-Asides

USFCR provides fast and accurate government registration services.

#### Ease of Access

With APP, you can instantly monitor the compliance status of all of your subcontractors.
